

# Flavors

---

**In partnership with Aromatech – France, FSL's Flavors Unit offers a wide range of bespoke flavor solutions for all sectors of the food, beverage and pharmaceutical manufacturing industry.**

We are equipped with a state-of-the-art technical center in the UAE with facilities to develop applications, create and match flavor profiles and to conduct sensory trials and preference studies which expedite new product development and trials allowing our customers to stay at the leading edge of the industry.

Our flavors improve taste profiles to boost sales, compensate for flavors lost through processing, mask off notes of functional or pharmaceutical

ingredients, reduce raw material costs and compensate for limits of natural resources.

All flavors developed and supplied in the region are Halal compliant and we ensure that they meet the regulations of the region.
